ACKNOWLEDGEMENT OF COUNTRY

The Australian Ally Conference 2018 brings together people from across the world and these lands now known commonly as Australia and the Torres Strait. On behalf of Curtin University, we pay our deepest respects to the traditional custodians of country throughout Australia and the Torres Strait.

We would like to acknowledge the Whadjuk Noongar people on whose land we are convening this conference, and recognise the strength, resilience and capacity of the Noongar people. We offer our respects and gratitude to their vibrant and endless culture and the leadership of the Elders of the Noongar nation, past, present, and emerging.

This country (boodja), where Curtin University is situated, has belonged to the Whadjuk Noongar people for thousands of years and is now a place of learning for all people. Curtin University is very proud to continue on with this very long tradition.

Conference Hosts

Curtin Ally - When students or staff are not comfortable in bringing their whole identity to Curtin, there is a risk both to their own performance and to the strength of their teams. That’s why we’re committed to creating an environment where our students and staff are welcomed, respected and valued, regardless of their sexual orientation, gender identity, gender expression or intersex status.

Creating and maintaining an inclusive university is central to Curtin’s values and strategic positioning to “above all, be led by our values as we support our staff, promote Indigenous reconciliation and contribute to a fairer and more just society for all”.

The Centre for Human Rights Education is a centre for research, postgraduate teaching, critical scholarship and advocacy on human rights. The Centre leads ethical scholarship, enabling individual agency and community engagement on human rights and social justice through the study and promotion of human rights at local, national and international levels.

The 2018 Australian Ally Conference is organised by Principal Sponsors Curtin University in partnership with the Curtin Centre for Human Rights Education.
Message from the Vice-Chancellor

It gives me great pleasure to welcome to you to the 2018 Australian Ally Conference, held here in Perth for the first time. We are delighted you could join us.

At Curtin, creating a safe and inclusive environment for staff, students, guests and community is a priority. Our support for diversity and equity is intrinsically aligned to our values of Integrity, Respect, Courage, Excellence and Impact and our commitment to creating a fair and just society for all.

As principal sponsor we continue the University’s long-held commitment to create and foster a welcoming and inclusive culture where LGBTIQ+ people are inspired to succeed and are celebrated for their unique talents and perspectives.

With 9 plenary sessions, 23 breakouts and over 90 speakers this year’s conference brings together a diverse range of professional and academic staff, students and practitioners, private enterprise and government and will showcase best practice, new challenges and possibilities for change. I hope that you thoroughly enjoy the conference and leave even more committed to leading positive change for LGBTIQ+ people well into the future.

Thank you to our sponsors, the conference committee and all those behind the scenes, without whom this conference would not have been possible. I would particularly like to acknowledge the work of Michelle Rogers (Director, Student Experience) and Professor Baden Offord (Director, Centre for Human Rights Education) who have co-convened the conference.

Professor Deborah Terry AO
Vice-Chancellor, Curtin University
The successful carriage of marriage equality into Australian law in 2017 reflected a triumph for LGBTIQ+ inclusion. However, the recognition of marriage equality as a right is only part of the story as LGBTIQ+ people face ongoing and entrenched social, cultural, political, religious and economic discrimination and exclusion from being full participants in society.

The challenges regarding the human rights for people based on sexual orientation, gender identity expression and intersex status occur in the everyday, through the lived experience at home, in the workplace and in education.

The 2018 Ally Conference will open up a national and international conversation on how to activate human rights in relation to sexual orientation, gender identity and sex characteristics for all people well into the future, setting new pathways to policy, innovation and enduring change.

The Conference is bringing together academic and professional staff, students, activists and practitioners from across Ally and LGBTIQ+ communities in the education sectors, industry and beyond. It will showcase best practice among Ally networks in diverse institutional contexts.

This is the second national conference and the first Australian Ally conference in Western Australia, and we look forward to participating in robust discussions for the two days of the conference.

Co-Convenors:
Professor Baden Offord, Director, Centre for Human Rights Education, Curtin University
Ms Michelle Rogers, Director, Student Experience, Curtin University

LGBTIQ+ refers collectively to people who are lesbian, gay, bisexual, transgender and/or intersex, and attempts to include the many people and communities who have additional ways of describing their distinct histories, experiences, and needs. For the purpose of this conference, LGBTIQ+ will be used to aid effective communication about complex concepts around bodies, genders, relationships, sexualities, histories, and lived experiences.
The Honourable Michael Kirby AC CMG  
Patron, Curtin Centre for Human Rights Education  

Michael Kirby, Conference Keynote Speaker: “LGBTIQ+ people continue to live with social exclusion and homophobia in broader society, in their studies and in the workplace. It is through education and networks, such as the Ally Networks that these attitudes and experiences are changed.

Australia’s universities have a significant role to play in educating their students about the importance of diversity and inclusion.”

Dawn Hough  
Director, Pride in Diversity  

We at Pride in Diversity are delighted to support the Australian Ally Network Conference, to be held in September at the magnificent Curtin University campus. Over the last ten years, Pride in Diversity has become the leading LGBTIQ+ workplace inclusion centre of expertise across Australia.

During this time, the critical role of Allies in supporting LGBTIQ+ inclusion has become self-evident. Enabling these allies, through training and collaboration provides momentum for every organisation’s progress, but in particular to higher education institutions, where the focus is on both the staff employee community, but also on the employee talent of tomorrow, namely the student community. The Australian Ally Conference promises to bring together Allies from across Australia for discussion on the challenges that remain (post marriage equality) but also the opportunities and best practices around leadership, network development and policy improvements.
Western Sydney University initiated this event because we strongly believe universities have a leading role to play in advancing issues of human rights and social inclusion. A key part of this leadership is in universities providing for a for broader social discourse and in contributing academic knowledge and insights to these conversations. One of these very important discussions is the wellbeing, inclusion and equality of sexually and gender diverse Australians, particularly our young people.

I congratulate Curtin University and the Curtin Centre for Human Rights Education and the national Ally Network for their organisation of the second Australian Ally Network Conference. I encourage practitioners, academics, students and others from around Australia to join this important event in September 2018 and I wish the conference great success.

Curtin University is proud to support the Australian Ally Conference and Ally’s essential work for activating LGBTIQ+ human rights and inclusion.

As an educational institution it is imperative we lead social change, model best practice as employers and continue to promote and foster a culture that is inclusive and welcoming of sexual and gender diversity.

We encourage you to support and participate in this important Australian Ally conversation development and policy improvements.

(NOT) A Love Song
Documenting LGBTIQA+ activism in Perth, 2014 – 2018

(NOT) A Love Song is a look at the various LGBTIQA+ movements and events in Perth over the years 2014 – 2018. In this short period, we have witnessed a number of momentous actions: The survey and subsequent legalisation of same-sex marriage, and the discussion around the Safe Schools program, to name a couple. However, activism isn’t just the out and proud moments – it’s also the quiet ones, like the very public outpouring of grief when an attack on the community was felt from halfway across the world. These images are a brief look at hope, loss, love and anger through activism in the LGBTIQA+ community.
